AKSHIT KUMAR

Senior QA Engineer | AI & LLM Testing | FinTech & Healthcare

Sector 26, Noida, Uttar Pradesh | +91-9015797436 | Akshitkumar0508@gmail.com | linkedin.com/in/akshit-chauhan-07a8b1240

PROFESSIONAL SUMMARY

ISTQB-certified Senior QA Engineer with 4.3 years of experience in FinTech and healthcare. Skilled in web, mobile, API, and end-to-end automation using Selenium WebDriver, Java, TestNG, Appium, and Postman, with strong experience in payment workflows, HL7/FHIR interfaces, SQL data validation, and HIPAA-compliant testing. Experienced in testing AI features, including LLM and RAG-based applications, and in using AI tools such as Claude and Cursor AI to speed up test design and automation in Agile teams.

TECHNICAL SKILLS

AI / LLM Testing: LLM & RAG application testing, prompt testing, grounded-answer and source-citation checks, retrieval/context relevance validation, AI-assisted test generation, AI agent workflows (multi-agent dev & QA)
AI Tools: Claude, Cursor AI (test scenario design, FRD review, script generation)
Programming & Databases: Java, SQL | MySQL, Oracle, Sybase
Test Automation: Selenium WebDriver, Playwright, Appium, TestNG, Cucumber (BDD), Page Object Model
API & Performance: Postman, SoapUI, JMeter, Charles Proxy
CI/CD & Defect Management: Jenkins, Jira
App Servers / Design / Methodology: JBoss, WildFly | Figma | Agile (Scrum)
Domains: FinTech (payments, recharges, loyalty), Healthcare (HL7, FHIR, HIPAA)

PROFESSIONAL EXPERIENCE

Senior QA Engineer | Paytm, Noida **June 2025 – Present**

- Maintain and extend Selenium WebDriver, TestNG, and Appium automation frameworks covering Paytm's web and mobile apps used by millions of customers.
- Ensure release quality for high-volume payment flows, including prepaid, postpaid, recharges, payments, loyalty, and KPI modules, through end-to-end functional and regression testing.
- Run automated regression and JMeter performance tests through Jenkins CI/CD, catching defects early and supporting faster, stable releases.
- Use Claude and Cursor AI to analyse FRDs, generate test scenarios, and speed up automation scripting, improving test design turnaround.
- Partner with product, design, and development teams to validate Figma designs and business requirements before release.

QA Engineer | Bayatree Infocom, Mohali **June 2022 – June 2025**

- Owned testing of healthcare applications and HL7/FHIR integrations (ADT, IHE, lab workflows), ensuring accurate, reliable exchange of patient and clinical data.
- Validated HL7 messages and FHIR APIs with SQL-based data checks, maintaining HIPAA compliance and protecting patient health information (PHI).
- Managed WildFly deployments (SAR/WAR), analysed server logs, and monitored memory and services to keep production-like environments stable.
- Worked in Agile (Scrum) teams, logging and tracking defects in Jira through to closure.

PROJECTS

VolleyLive – AI Volleyball Scoring App | https://github.com/Akshitcc/vollyBall

- Led AI-agent-driven development and QA of an Android app (React Native, Node.js, MySQL) with live scoring, stats, and tournaments.
- Built and tested a RAG-based AI help assistant that answers user questions only from verified FAQ sources, in English and Hindi.

EDUCATION

MCA | AKTU University, Lucknow (2018) • B.Sc. | MJP Rohilkhand University, Bareilly (2015)

CERTIFICATIONS

ISTQB CTFL (June 2025) • Microsoft Azure AI Fundamentals (AI-900) • ISO/IEC 20000-1:2018 Implementation
